

Client Contract Pack

Issue and legal-readiness guide

Owner	Heutrix Pty Ltd
Version	1.0 1 August 2026
Status	INTERNAL - complete stop-issue items before client signature
Jurisdiction basis	Australia; governing law drafted for Victoria

Important: This pack is a commercially usable first draft, not a substitute for advice from an Australian solicitor. A solicitor should confirm the entity details, liability settings, privacy status, insurance position and the final service model before first issue.

1. Current launch position

The pack is designed for Heutrix's confirmed workflow-improvement, practice-visibility, internal-system and safe-AI services for Australian allied health practices and disability support providers. The launch Workflow Diagnostic is set at AUD 950 plus GST, subject to verified GST registration.

The contracting party used throughout is Heutrix Pty Ltd. No ACN, ABN, registered office, monitored legal/privacy email or insurance schedule was present in the source material.

2. Stop-issue items

Do not sign yet: Complete every item below in the Word masters before converting the client-specific issue copy to PDF.

Item	Required action	Owner / complete
Entity identity	Verify the exact ASIC-registered company name and ACN. Place the ACN (or qualifying ABN) on page 1 of every public document.	_____
ABN and GST	Confirm an active ABN and GST registration. Do not label invoices 'Tax invoice' or add GST unless registered.	_____
Addresses	Insert the registered/service address and the operational contact address for notices.	_____
Contact channels	Insert a monitored contracts email and privacy contact path; confirm the live website domain.	_____

Item	Required action	Owner / complete
Insurance	Confirm professional indemnity, public liability and cyber cover, limits, exclusions and retroactive dates. Insert only verified cover in each SOW.	_____
Approved systems	Approve the exact Google Workspace or Microsoft 365/SharePoint tenant, applications, administrators, hosting regions and subprocessors.	_____
Banking and invoices	Confirm the Heutrix bank account, invoicing platform, payment terms and fraud-resistant bank-detail change process.	_____
Signing authority	Confirm who may sign for Heutrix and keep the supporting director/board authority with the contract record.	_____

3. Contract map

Before a fit call. Privacy collection notice. Use the mutual NDA only if non-public detail must be exchanged before engagement.

Every paid client. Signed Client Services Agreement plus a signed Order Form or Statement of Work.

Workflow Diagnostic. Use the Workflow Diagnostic Order Form with the Client Services Agreement. Default data setting is de-identified/sample information only.

Build or system access. Add a General SOW and an approved Data and System Access Authorisation before access is granted.

Any AI use. Complete the AI Use Case Approval. No AI use is approved by silence or by a generic project description.

Scope change. Use the Change Request before extra work, fees, tools, data or dates are introduced.

Project close. Use Deliverable Review and Acceptance plus Handover and Access Closure.

Website. Publish the Privacy Policy, Collection Notice and Website Terms after reconciling them to the live forms, cookies, analytics and vendors.

4. Recommended Workflow Diagnostic defaults to ratify

- One remote discovery workshop of up to 90 minutes.
- Review of up to five relevant documents or 50 pages in total.
- One current-state map, one future-state map, a prioritised opportunity list, a findings presentation of up to 60 minutes and a concise written report.
- Completion target of 10 business days after payment and receipt of agreed inputs.
- Fee paid in advance; unused amounts refunded if Heutrix terminates before performing the relevant services.
- No patient, participant, worker or other sensitive information; use synthetic, de-identified or redacted material only.

5. Client issue sequence

1. Check the client legal name, ABN/ACN, authorised signatory and notice email.
2. Select and complete the SOW, including scope boundaries, acceptance criteria, dates, fees, IP option, insurance and data/AI settings.
3. Complete the data classification and confirm the approved tenant, storage location, administrators and access end date.
4. Send the CSA and SOW together. Do not rely on a website link that can change after signature.
5. Obtain signatures before starting paid work or accessing a client system.
6. Save the signed documents, approved change requests and access records in the approved Heutrix contract repository.
7. Invoice using verified entity, ABN and GST particulars.
8. At close, document acceptance, handover, access removal and data return/deletion.

6. Key legal design decisions

- The terms preserve non-excludable Australian Consumer Law rights and use objective acceptance and cure processes.
- Termination, suspension and variation rights are reciprocal or tied to defined risks to reduce unfair-contract-term exposure.
- The general liability cap and a higher confidentiality/privacy/IP cap are transparent but must be aligned with insurance and risk appetite by a solicitor.
- Victorian health-information protections are treated as relevant whenever Heutrix handles identifiable health information in Victoria, regardless of business size.
- AI use is not approved by default. Each tool, use case, data category and human reviewer must be recorded.
- The privacy policy does not assume that the federal small-business exemption applies; it states that applicable federal and state privacy laws will be followed.
