For Heutrix Workflow Transformation and Heutrix AI Guardrails

SOW number	[Placeholder]
Provider	Heutrix Pty Ltd ABN 64 702 109 662 ACN 702 109 662
Client legal name	[Placeholder]
Project	[Placeholder]
SOW date	[Placeholder]
CSA	Heutrix Client Services Agreement v2.2 review draft, dated 13 September 2026; replace with exact approved issue version before signature

Completion rule: Do not sign this SOW until every selection affecting scope, fees, data, AI, IP, insurance and acceptance has been completed. Delete unused options in the client issue copy.

REVIEW DRAFT. Complete document 09 approvals and every required field before client issue. No legal review, business approval or effective date is recorded by this file. Keep completed client copies outside this repository.

Product [Placeholder] (SELECT Heutrix Workflow Transformation / Heutrix AI Guardrails). If both are included, price and define each scope and acceptance separately. Diagnostics normally uses document 02. No purchase of Diagnostics or AI Guardrails is compulsory for Transformation.

Transformation baseline: one bounded non-clinical workflow; Diagnose, Triage, Build, Handover; conditional typical 2-4 weeks after agreed prerequisites. Include the 60-90-minute workshop, two review checkpoints, testing, guidance, training and handover within approved scope/capacity. State exact systems, roles, integrations and refinement rounds.

Transformation defect commitment: 30-day stabilisation and correction of qualifying in-scope defects. Agreed trigger [Placeholder] (APPROVE); start/end dates [Placeholder] (COMPLETE); reporting channel, remedy and exclusions [Placeholder] (COMPLETE). The period does not limit statutory rights. Enhancements and ongoing support are separately scoped.

AI Guardrails scope: specify teams, tools and use cases; approved governance outputs, assessment depth, scenarios, sponsor review, briefing and handover owner. These working requirements must be validated and scoped. No technical enforcement, continuous monitoring, certification or compliance outcome is implied. Any actual AI use requires form B.
