

ILLUSTRATIVE / NOT A CLIENT RESULT

When not building is the useful decision.

The request

Can we automate reminders for missing information?

ILLUSTRATIVE / NOT A CLIENT RESULT

First, inspect the rule.

The problem

Teams disagree about complete.

The missing control

Nobody owns the exception decision.

The trigger

Required data is recorded inconsistently.

ILLUSTRATIVE / NOT A CLIENT RESULT

Clarify before automating.

Agree the decision rule

Define complete and who approves exceptions.

Check a baseline

Use non-sensitive operational information.

Reassess

Is automation now justified?

ILLUSTRATIVE / NOT A CLIENT RESULT

The value is the decision.

Heutrix Diagnostics

Compare feasible options, including no build.

Ask

Is the rule stable enough to automate?
