

Three problems. Three starting points.

Heutrix Diagnostics

What should we fix first?

Heutrix Workflow Transformation

How do we improve this workflow?

Heutrix AI Guardrails

What are our AI-use boundaries?

Not sure what to fix first?

Heutrix Diagnostics

A paid, standalone investigation of one boundary and practical options.

Useful result

A decision-ready implementation brief, including no build when appropriate.

One workflow needs to work better?

Heutrix Workflow Transformation

Redesign, implement, test and hand over one bounded non-clinical workflow.

Primary implementation offer

A process improvement, existing-system change or scoped build may be appropriate.

HOW HEUTRIX HELPS

AI rules are unclear?

Heutrix AI Guardrails

Information boundaries, approved uses and accountable human review.
